# RISEN

## Carpet Stain Spotter

Risen is formulated with the a special blend of non-pathogenic, enzymes and bacterial spores. This product offers outstanding performance when used as a deodorizing and organic digester. These special bacterial cultures do more than just cover odors, they eliminate the source of the odor. Natural enzyme producing bacteria consume organic waste to eliminate malodors. They consume organic matter when used in carpet and upholstery care. Destroys the source of the odor!

This specialized formulation may be used to pre-spot carpet, rugs, and upholstery prior to overall cleaning, or as a spot and stain remover for localized application. It can emulsify oil base matter such as make-up, lipstick, oils and greases, fats, hair creams and dressings, shoe polish, floor wax, and inks, and is equally effective on water based matter such as pet stains, coffee, cola, tea, food spills, grass stains, wine and liquor. This product is odorless and biodegradable.

### Directions

1. If spot contains some solid matter, scrape up as much as possible prior to application of product.
2. Saturate spot with undiluted product and allow to penetrate into stain.
3. Absorb product and dissolved matter with a paper towel or cloth. Re-apply product to spot and agitate slightly.
4. Repeat this procedure until paper towel or cloth seems to have dissolved all of the spot.
5. Allow to dry. When dry, vacuum the surface, or brush upholstery fiber to raise pile or nap.

Some oil based stains tend to "bleed" when emulsification occurs, so take care not to spread stain.

Do not mix this product with other cleaning compounds or solvents.

**NOTE:** Always check an obscure area of surface to determine color fastness of fabric. Do not use on wool or velvet fibers.

### Caution Statements

**WARNING:** This product is intended for Industrial and institutional use. It can cause irritation and/or damage to eyes and skin. Avoid contact by wearing protective devices such as safety glasses and rubber gloves. If contact to eyes or skin, flush with water for 10–15 minutes. If irritation persists, seek medical attention. Always read the Material Safety Data Sheet for additional precautions before using this product.

### Physical Properties

Appearance: Milky White Liquid

Specific Gravity: 1.119

Odor: Characteristic

pH (Conc.): 6-8

Flash Point: N/A (Water-Based Liquid)

### Packaging

This product is available in 12x32 ounce cases, 4X1 gallon cases, 5 gallon pails, and 55 gallon drums.

P.O. Box 361 Owensville, Ohio 45160
