SHINE ON...

Spray Buff & Gloss Restorer

Shine On... is designed to be used as part of a high speed floor maintenance program, use as needed to clean, protect, and restore finished floors.

Using Shine On... as a regular part of propane and other high speed floor maintenance programs will greatly reduce labor and provide outstanding results. Use this formulation as a cleaner and restorer by mopping on and burnishing with a high speed machine or use through an automatic scrubber.

Shine On... repairs scuffs and scratches. It also restores gloss and is compatible with most floor finishes.

Directions

Mop and Burnish Method:

1. Dust mop floors to remove surface dirt and grit.
2. Add 2 ounces of product per gallon of water in a clean mop bucket.
3. Damp mop floor with solution, evenly applying a thin coat.
4. Let floor dry thoroughly, burnish floor with a high speed floor machine and the proper burnish pad.

Automatic Scrubber Method:

1. Dust mop floors to remove dirt and grit.
2. Fill scrubber solution tank with water and add product, 2 ounces per gallon of water.
3. Scrub the floor, picking up solution and detail mop as necessary.
4. Let the floor dry thoroughly and burnish with a propane or other high speed floor equipment.

Spray Buff Method:

1. Fill sprayer with the product.
2. Clean floor thoroughly.
3. Mist lightly ahead of machine.
4. Force dry with high speed machine.
